HOW YOU MAY REDUCE YOUR WEIGHT Overstoutness is a very unwelcome

condition, especially in the present day, when slender figures are so popular, and every reader of this paper who has noticed a tendency to put on weight will be glad to know of a new, simple home treatment that is remarkably efficient and inexpensive. If you happen to be one of those whose weight is more than it should be, don't try to reduce it by starving yourself; eat all you want, but take after each meal and at bed time, five grains of Phynola, which you can se-

cure at any drug store. Phynola is designed to increase the oxygen carrying power of the blood and dissolve fatty tissue, in many cases at the rate of a pound a day. It is pleasant to take and gives remarkable results quickly and easily. Conkey Drug company can supply you.-Adv.

Lady Number One had secured the confidence of certain business houses. They were glad to extend credit for such purchases as she wished to make during the month, and she was very particular to see that these accounts were paid well before the 15th of the following month.

She established her own credit because in Richmond, unlike many other cities, the merchants are friendly and are glad to disseminate information to each other.

So when Lady Number One asked to have something charged for the first time, the clerk no doubt phoned to the Credit Department, which in turn got in touch with other merchants, and was told of a number of houses that were glad to extend the courtesy of a charge account to this lady.
